Dear Sir:

In response to the Office Action mailed April 27, 1999, please amend
the above-identified application as follows:

IN THE CLAIMS

1. (amended) A system for respiration modulated pacing,
comprising:
pulse generator means for generating and delivering pacing pulses to
control the beat rate of a patient's heart; and
rate control means for controlling [the] a pacing rate of said pacing
pulses, said rate control means further comprising:
respiration means for obtaining respiration signals representative of
patient respiration, and modulation means for developing rate modulation
